

BIOSPOT TABLETS 3.25g

3.25g (1.7g NaDCC) Effervescent Chlorine Tablets

Effervescent chlorine tablets are fast dissolving, highly convenient, safer and far more accurate alternative to liquid bleach. NaDCC is well established within both the Health Service and local government authorities as the favoured method of chlorine disinfection.

The major advantages of effervescent chlorine tablets are:

- They are accurate, always yielding the stated level of available chlorine.
- Convenient, economical and easy to use, just add water and allow to dissolve - a system that eradicates the over and under dosing that is common with liquid bleach.
- Safer and less corrosive than liquid bleach, meaning a reduced risk of personal accident and injury.
- Effervescent chlorine tablets have greater biocidal properties strength for strength than liquid bleach, especially in the presence of soiling.

DOSAGE: Make up solution with warm water as per the table below:

1 Tablet in	Gives available chlorine	Typical uses
0.1 litre	10000 ppm	Body fluid spills
0.4 litre	2500 ppm	Laboratory discard jars
1 litre	1000 ppm	General disinfection
2.5 litres	400 ppm	Drains, sinks, toilets
5 litres	200 ppm	Food preparation areas
10 litres	100 ppm	Cloths, mops, glassware
100 litres	10 ppm	To purify potable water

PACK SIZE:

Box containing 6 x 200 tablets

STOCK CODE: 0610-06x2

TECHNICAL DATA

State	Flat white bevelled edge tablet	pH (diluted solution)	4 - 6 approx 1
Odour	Characteristic	Solubility in water	Soluble

CLP PICTOGRAM

Signal Word - **Warning**

CLP HAZARD STATEMENTS

H319	Causes serious eye irritation.
H335	May cause respiratory irritation.
H410	Very toxic to aquatic life with long lasting effects.

CLP PRECAUTIONARY STATEMENTS

P102	Keep out of reach of children.
P271	Use only outdoors or in a well ventilated area.
P280	Wear eye protection.
P337 + P313	If eye irritation persists: Get medical attention.
P391	Collect spillage
P402 + P404	Store in a dry place. Store in a closed container.
P501	Dispose of contents/container in accordance with local regulations.
EUH031	Contact with acids liberates toxic gas.

SAFE HANDLING, STORAGE & DISPOSAL

Do not mix with other chemicals. Protect from frost. Store in a closed container away from heat and sunlight.
